COLOUR DIGITAL PRINTER**

olivetti

BRIGHTEN UP THE OFFICE WITH COLOUR. GO FOR THE BEST WITH THE OLIVETTI D-COLOR P16, THE HIGH QUALITY LASER PRINTER DESIGNED FOR OFFICE WORK. THE OLIVETTI D-COLOR P16 IS THE IDEAL PRINTER TO PROVIDE THAT TOUCH OF COLOUR TO MAKE YOUR DOCUMENTS CLEARER AND MORE STRIKING AND CAN PRINT ON ALL TYPES OF PAPER. WHAT'S MORE THE OLIVETTI D-COLOR P16 IS SIMPLE TO INSTALL, EASY TO USE AND, WITH DOUBLE-SIDED PRINTING, OFFERS GREAT SAVINGS ON PAPER COSTS.

d-Color P16

1200x1200 dpi resolution, with a palette of over 16 million colours

wide paper capacity which with the optional drawers reaches 1,600 sheets

HIGH SPEED IN COLOUR

The Olivetti d-Color P16 is the digital printer that lets you produce colour documents quickly, thus offering your office new possibilities.

In fact, thanks to the new tandem technology it can print your documents in much less time than traditional colour laser printers. This is because instead of passing the sheet 4 times through the machine, the d-Color P16 prints the four primary colours (cyan, magenta, yellow and black) in a single pass, without sacrificing print quality. With its 400 Mhz processor the d-Color P16 prints at the extraordinary resolution of 1,200 x 1,200 dpi, with a palette of over 16 million colours. Of note also is the print speed for the first page, which is produced in less than 13 seconds.

The Olivetti d-Color P16 uses the new micropolymer toner which guarantees lower power consumption, less warm-up time and better print quality: bright colours and ready to use documents.

TECHNOLOGY THAT MEANS SIMPLICITY

The technology of the Olivetti d-Color P16 is designed to guarantee the utmost simplicity both in starting-up and in use. Once connected to the network

and to your computer and with the driver quickly installed, the d-Color P16 is ready to print at once.

Among the important options offered by the Olivetti d-Color P16 are Remote Control Software and WEB Connection, elements that offer important advantages in terms of controlling and managing the machine on large company networks, time saving if the machine is installed in an area a long way from the operator, control of consumables and modification of settings without having to use the machine's control panel.

ABSOLUTE COMPATIBILITY

The Olivetti d-Color P16 has a parallel and network interface as standard. It can handle the output of the most common software packages that generate Adobe® PostScript® 3™ and PCL 6 documents and can be used with the Windows, Macintosh and Unix operating systems.

MORE WORK, LESS PAPER

The Olivetti d-Color P16 offers notable savings in terms of paper, above all for large documents. In fact the duplex unit, included as standard, allows automatic double-sided printing. Less consumption, of course, does not mean less paper capacity, because

in its standard configuration the capacity is 500 sheets, to which may be added 100 sheets in the standard multifunction drawer and another 1,000 with the optional two drawer feeder.

The Olivetti d-Color P16 can also handle all types of paper, with weights ranging from 60 to 216 g/m² in formats from A5 to folio and transparencies, so there is no limit on the type of paper to use!

higher speed with four-colour printing in a single pass

the user friendly panel allows a simple set up of the printer according to the user's needs

Digital colour printer

TECHNICAL FEATURES

Print technology

Single pass electro-photographic tandem laser

Maximum print speed

Up to 16 ppm A4 in B/W and in colour
Up to 10 ppm in B/W and in colour with the duplex

Duplex

Standard

Resolution

1,200 x 1,200 dpi

Printer language compatibility

PCL5c - Adobe®PostScript®3 Standard

Font

136 PostScript - 45 PCL

PAPER MANAGEMENT

Input drawer: 500-sheet standard
Multifunction standard drawer: 100 sheets
Paper output: 250-sheet drawer face down
Optional paper input: high capacity feeder
2 x 500 sheets

Weight

Input drawer:
from 60 g/m² to 105 g/m²
Multifunction drawer:
from 60 g/m² to 216 g/m²

Paper format

Input drawer: supports A4-Letter-Legal-

Executive-A5-B5-JIS- Folio weight 60-105 g/m²
(transparencies, labels, standard paper)
Multifunction standard drawer: Supports
A4-Legal-Letter- Executive- Statement-
A5-B5-Folio-Envelopes COM 10 - DL -
Monarch, C5, C6 Paper from 60 to
210g/m² (transparencies, labels,
standard paper)

Memory

128 MB standard expandable up to 256 MB,
optional 2 GB hard disk

Interfaces

Standard parallel IEEE1284, Ethernet
10/100 base T, USB 2.0

Driver support for operating systems

Windows 95/98/2000/XP/NT4.0;
Macintosh; original drivers Adobe®
PostScript®; UNIX through LPR

Monthly workload

Up to 60,000 pages/month

Dimensions (BxDxH)

439 x 638 x 445mm

Weight

35 kg. including consumables

Electrical features

220-240 V 50/60 Hz

Consumption

Printing 850 W
Standby 45 W

Noise level

Printing <55 dBA, standby <35 dBA

Certifications

CE - Energy Star

Environmental conditions

Temperature: from 5° to 32° Celsius
(operational and in storage)
Humidity: from 15% to 85% (non condensing)

OPTIONS
